## *Directors Perception:*

### *Respected All...*

Education is society's most Dynamic, updated and needed sector. Nation building and Social Service is best done through education. Be in education through School. College, Coaching Class or E-learning Platform.

Education is society's most Dynamic, updated and needed sector. Nation building and Social Service is best done through education. Be in education through School. College, Coaching Class or E-learning Platform. Teaching is very most Noble Profession. Teaching and Learning is always simultaneous Process. So, as someone said, we as a teacher remains students forever. Learning: though we are teacher, we teach less and learnt more. Our journey of learning through interaction with young minds, Observation of next generation, students talks, behaviour, culture, knowledge, presentation, etc.

Interaction with Diverse Colleague, their Knowledge, Sharing and caring adds a lot. Reference books, discussions and seminars, and many more activities makes us rich in all senses. Teaching: Shaping the education and career of students with our teaching is the ultimate experience. Delivering the Subject, Perception and Experience with students understanding is big challenge and task which we live every day.

As we create society! we build Nation! we make future for all. So we are responsible, we are accountable. We are reason. So we must be honest, we must be true, we must be fair, we must be visionary, we must be in- depth, so on. Finally, we Must Enjoy the Profession! I do! we do! Nuclear Academy is very Glad and Proud to be in education.
